

PAY ATTENTION:
install the illuminator so that the bottom wall is in direct contact with a flat metal surface. In this way the support surface of the illuminator will be able to guarantee an adequate dissipation of the heat produced by the LEDs. Maintaining a low illuminator temperature allows the average life of the LEDs to be lengthened and the light emission to remain stable.

Rev.	Description	Date	Sig.

General machining tolerances: H11 hole - h11 shaft - linear dimensions ±0.1mm - angular values ±30'			
Surface texture according to UNI 4600-83, unless otherwise specified. Geometrical tolerances according to UNI 7226-1.
